CHAPTER V

CONCLUSION AND SUGGESTIONS

5.1 Conclusion

Based on the results of this research presented in the previous chapter, the writer would draw some conclusions as follows. There are eight types of pronouns in English, and the writer just found 4 types of pronouns based on the data that found in Alurung language from the 10 informants. The data was taken by the writer from the informan every day story, it take 5- 20 minutes in a day. Based on the data analysed, the writer found that there are 4 types of pronouns found in Alurung language. Such as, personal ppronoun, demonstrative pronoun, indefinite pronoun and interrogative pronoun. The pronouns have been described by using the 4 types of pronouns.

5.2 Sugestions

Based on the findings, here are some suggestions:

1. Language is a tool of communication in this world. Every language has its own pronoun and dialect that very unique.

2. This research can be used as a source for the other researcher or also the people who want to know about morphosintax of the pronouns in alurung language.

3. If want to know more about alurung language very detail, visited Alor in kokar village. and there are several place or sub-districts in Alor regency, whom there is a lot of people knows very well and detail about alurung language.

4. This research is purpose to share for the others about morphosintax of the pronouns in Alurung language. And can helps easily for the others when they are want to know about alurung dialect.

5. For the researcher, hopes this research can help to finished his study and get the bachelor's degree.
