

CHAPTER V

CONCLUSION AND SUGGESTIONS

5.1. Conclusion

Based on the results of the study entitled a descriptive study of student satisfaction level teaching strategies for PPL UKAW students in SMP Negeri 10 Kupang, it was carried out by distributing questionnaires the form of questions to 15 students at SMP Negeri 10 Kupang. The result was that the level of student satisfaction with the teaching strategies of PPL UKAW Kupang students is in the very satisfied category with a score of 81.33%, but must be maximized on the empathy indicator because students feel quite satisfied. So, the writer can conclude that the teaching strategy used by UKAW Kupang PPL students is good and prove it with students feeling satisfied.

5.2. Suggestions

Looking at the results of the research, this writer provides suggestions, namely:

- a. UKAW Kupang PPL students need to continue to improve so that when they enter the field, students who become objects in the teaching and learning process feel comfortable (very satisfied) with the teaching strategies applied.
- b. For teachers, it is hoped that there will be efforts to improve teaching strategies, such as a more varied teaching style. For example, making videos of teaching materials which are distributed to students so that students do not find it difficult to get teaching materials.

- c. For schools, it is hoped that this can be a reference and problem solving in making decisions for the future it is necessary to change teaching strategies towards teacher teaching strategies for the level of student satisfaction.
