

CHAPTER V

CONCLUSION AND SUGGESTIONS

5.1 Conclusion

Based on analysis of research data, the researcher conclude that running dictation can develop students' writing skill on class VIII.2 SMP Kristen 3 Soe. This can be seen from the main score of students' on pretest was 4,0 and on the posttest 7,1 as well as an increase students' writing ability by 77%. So, it was concluded that the running dictation method can develop students' writing ability on the learning process.

5.2 Suggestions

Based on conclusions above, the researcher gives the following suggestion:

1. For the English teacher, it is expected to use running dictation method in teaching to develop students' writing abilities, because this method can make students' more active in writing ideas generated by their own minds.
2. For students', it is hoped that by using running dictation method the students' more enthusiastic in learning English, because it provides fun activity to develop their writing ability. It can also, make students' more concentrate when they write something.
3. For other researcher, the finding of this study can be useful as additional information and knowledge for those who interested in doing research related to running dictation method.
