

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusions

After doing the research, the writer would like to present a brief conclusion dealing with the improving students writing in procedure text by using picture at eight grade students of SMP N 20 Kota Kupang.

Using picture is very helpful for improving students ability in writing procedural text at the eight grade students of SMP N 20 Kota Kupang. The advantages of using picture in teaching procedural text for the students are: improving students memory about material given, understanding of the students and decreasing the monotonous in teaching and learning process especially in teaching procedural text.

The improving score of the students test shows that by using real calculating, students have better memorization of the words. Based on the result obtained in chapter IV, the writer was confident that teaching procedural text using picture potential improving the student achievements.

5.2 Suggestions

The writer would like to give some suggestion to those who are teacher of English and prospective researchers in the area of the use of picture in teaching and learning process.

1. Mastery of English skill is very useful in both oral and written communication, specifically the ability of writing. To achieve good ability,

teachers of English should facilitated and promote using media/picture or others which relevant to teaching materials.

2. As the result of this study shows that the use picture in teaching writing procedural text is really potential improving the students achievements, Teaching and learning process.
3. The student should study and practice hard to improve their writing ability.
4. The researcher hopes that result of this study can become a useful contribution to English teacher and trainers in improving the student achievement and a source of reading for those who are interested to conduct the investigation in the similar topic.
5. Teacher realizing the previous knowledge of the students in skills, the teacher should pay attention about the method or strategy applied in teaching and learning process. Teachers also should actively encourage, let the students express their vocabularies to practice the vocabulary they have or learn in classroom.
6. Future researcher this study focused on writing procedure text using picture. Hopefully, the future researcher can investigate more about others skills using the some media, such as speaking, listening, writing and reading. In addition, the future researchers hopefully would combine with other teaching method in order improve students interested in learning English in fun and enjoyable learning situation.
