Penelitian ini berjudul “A descriptive study on parents’ support toward students’ online learning during pandemic covid-19”. Penulis merumuskan 1 penelitian pertanyaan yaitu: apa saja dukungan orang tua siswa terhadap pembelajaran daring selama pandemic covid-19. Tujuan penulis adalah: untuk mengetahui apa saja dukungan orang tua siswa terhadap pembelajaran daring selama pandemi covid-19. Penelitian ini menggunakan teori Cahyati 2020 tentang dukungan orang tua siswa terhadap pembelajaran daring selama pandemic covid-19. Dari 4 bentuk dukungan yang dikemukakan oleh Cahyati dan peneliti juga menemukan 4 dukungan orang tua yaitu: peran, fasilitas, motivasi, dan pengaruh. Dari hasil penelitian tersebut penulis mengharapkan kepada para orang tua agar memberikan dukungan secara baik agar anak dengan mudah memahami pelajaran yang diberikan selama pandemic covid-19.
