CHAPTER V

CONCLUSION AND SUGGESTION

This chapter, the writer presents some conclusion and suggestions of the types of presupposition found in the "Golden Ways" a TV program hosted by Mario Teguh. Based on the result of the research discussions and accordance to the purpose of the study.

5.1 Conclusion

After elaborating the data of this research previous chapter, the researches concludes that in the "Golden Ways" a TV program hosted by Mario Teguh has six types of presupposition such as existential presupposition where Mario Teguh used name and number to exist the presupposition ,factive presupposition Mario Teguh used realize and know as fact to exist the presupposition, lexical presupposition, structural presupposition Mario Teguh used word again and start in his utterance to exist the presupposition, structural presupposition Mario Teguh used wh-question in every utterance to exist his presupposition, non-factive presupposition Mario Teguh used dream and imagine to exist his presupposition, and conterfactual presupposition Mario Teguh used if-clause in his utterance.In this analysis the types of presupposition the last data collected of the "Golden Ways" a TV program hosted by Mario Teguh consist of 68 data.

The researcher found shared knowledge is very important to make inference. In this program, Mario Teguh, as the speaker, have a shared knowledge between him and the audience. So, he explained and served information pertinent to the topic. This shared knowledge will help him in giving a motivation. Mario Teguh, as the speaker, used presupposition before making an utterance in this program. We also use presupposition in a conversation in our daily life.

5.2 Suggestions

1. For student

Students need to realize the importance that watching the video not just hearing but also need to know the presupposition.

2. To the general public.

It is hoped that they can be selective again in shorting out the programs that will be consumed both for themselves and their families.

3. For next researcher

The next researcher is to be able to do further and more in depth research on types of presupposition.
