The textbook achieved 95.26% fulfilment criteria. The textbook is considered appropriate to be use in the English teaching and learning process.

5.2 Suggestion

The writer would like to give some suggestion as follow:

1. The authors of the textbook

The writer hope that in the next revision, the author adds more task and activities especially for listening, writing and reading skill and adds grammar presentation and explanation. And the learning objectives could be specified more clearly so the student will know what they can do from the lesson.

2. English Teacher at SMP Advent Nusra

Teacher is expected to be more creative to find a way in explaining grammar since it is barely present in the textbook. The teacher also expected to find other resources as a compliment the textbook to foster the listening, writing and reading skill.
