

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter consist of two points, those are conclusion and suggestion. After this research completed, the researcher gave some conclusion and suggestions for this research.

5.1 Conclusion

Based on the data analysis, the conclusion was presented with the research problem as follow; the finding and discussion showed that the results of the improvement in students learning vocabulary using audio-visual material. From the results that have been obtained, it showed that there were improvements experienced by students after learning vocabulary using audio-visual. So it can be proven that, the use of audio-visual in teaching vocabulary can improve students listening comprehension.

5.2 Suggestion

Based on the research findings, the researcher would like to purpose some suggestion. Which are addressed to teacher, students, and other researchers.

1. For the Teachers

Teacher can use audio-visual to improve students' listening comprehension. The use of this audio-visual in teaching and learning process is very fun and interesting for students. Moreover, the audio-visual provided is in the form of a video story. It is very easy to apply sand can motivate students in learning English.

2. For the Students

Students can apply audio-visual by understanding the material given because it will help them to solve their problems in listening English and to improve their listening comprehension.

3. For Other Researchers

The results only confirm the hypothesis, but do not prove that something is absolutely true all the time. In addition, this research needs improvement thinking for further research in addition, the findings of this study are expected to be used as a starting point for further research on similar topic.
