

CHAPTER V

CONCLUSION AND SUGGESTIONS

This chapter consists of a conclusion and suggestion Based on the researched data and the result in research study and discussion

5.1 Conclusion

Based on the result of data analysis in this study, the writer concludes that the effectiveness of using word wall in learning improve seventh grade student vocabulary. It was proved from the result of the t-test: the value of t-observed (**14,95**) is higher than the value of t-table (**1,70**) with $df = N-1$ and the level of significant = 0,05. In the result of students' scores of post-test in Pre-Experimental group the result is higher than the students' post-test score **79,6**. It was proved by the score average where Pre-Experimental group was **47,7**. It indicated that, there was a significant difference of the treatment using word media to improve students vocabulary.

The result of the research shows that using Word Wall media is able to improve students vocabulary mastery where the process could increase their knowledge about vocabulary, to know how to pronounce vocabularies, understand classifying the kind of vocabulary especially noun, adjective, verb and adverb to use proper word in writing, and to recognize vocabulary which suitable in sentence being formed. The enhancement of the students' writing skill is also supported by the result of the test scores. Based on the description of the result above, it proved that the using word wall in teaching vocabulary is able to improve students' vocabulary mastery.

5.2 Suggestions

Based on the study described in this writing and refers to the conclusion drawn above, some following suggestions may be considerable and helpful, especially to teachers, readers, and the writer herself. The writer would like to suggest some points as follows:

1. For the students

Students should practice and measure their vocabulary in English, discussing with their friend if they have difficulty in vocabulary, and enjoy vocabulary class. Student teachers can use this thesis as a guide to learn more about this research.

2. For the teachers

English teachers need to give useful information in varying their teaching media in classroom and choose materials that can encourage students' motivation in teaching learning English, especially in teaching vocabulary. Teachers can use Word Wall in teaching vocabulary and to create variety of teaching learning English process must be creative in developing teaching materials, and present the material in a way that is fun, relaxed, interesting and easy for students to understand. Meanwhile, students will enjoy, feel more interested and motivated in learning, especially in learning English. It is hoped that it can contribute to how teachers determine, learning material and methods that are appropriate to students' level of thinking, especially the development of students learning method

3. For other writers

So this thesis can be are reference for other research to conduct next research
