

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter presents conclusions of this research and some offer of suggestion. The conclusion and suggestion are drawn based on the research finding and discussion.

5.1 Conclusion

Based on the result of the data analysis in the previous chapter, the research conclusion is as follows: The various teaching methods applied english teachers at SMP Bina Karya Tuapakas and SMP Satap Bitan. based on the data that has been researched it can be seen from the questionare by doing observation the teacher who is applied teaching methods in english class. Five methods were found at SMP Bina Karya Tuapakas,namely Lecture Method, question and answer method, field trip method, discussion method, and project method and six methods were found at SMP Satap Bitan, namely Lecture Method, question and answer method, field trip method, discussion method, recitation method, and project method.

5.2 Suggestions

The writer would like to offer some suggestion to improvement of the various teaching methods especially the methods that teachers applied in teaching english at SMP Bina Karya Tuapakas and SMP Satap Bitan.

1. It is suggested to the teacher to applying various variations of teaching so that the used not only one method but also using various teaching method which can make student understand the material.
2. The students' should have more active in asking questions so that other methods such as the experimental method and role playing method can be used so that in the lesson students can understand.
3. The results of this research can also be used as an additional reference or further research with different discussion for the next researcher
